Starting Your SEARCH

Type your search terms in the Search Bar, which can be key words, company names, or authors' names

The screenshot shows the Scrip website interface. At the top left is the Scrip logo with the tagline 'Informa Pharma Intelligence'. A search bar is highlighted with a red box and a yellow circle with the number 1. Below the search bar are navigation links for EMAIL, RSS, and SAVE SEARCH / SET ALERT. The main content area is titled 'Search Results'. On the left, there is a 'Filter By' sidebar with sections for 'Publication' and 'Industry'. The 'Publication' section lists options like Pink Sheet, Medtech Insight, Scrip, HBW Insight, and In Vivo. The 'Industry' section lists Medical Device, BioPharmaceutical, and Consumer. The main search area shows a search bar with 'Search the site' and a search icon, with a red circle and yellow circle with the number 2 around the search icon. Below the search bar, there is a checkbox for 'Search headlines only' and a 'View headlines only' toggle. The search results show 'Showing 1 - 10 of 365,501 results'. A sample result is shown for '13 Apr 2020 | NEWS' with the headline 'Compounders Gain Flexibility In Shortages' by Joanne S. Eglivitch. A 'Keyword Search Tips' pop-up window is open, showing tips for searching, with a red circle and yellow circle with the number 3 around the 'Search Tips' link in the search bar. A yellow circle with the number 4 is around the 'See All' link in the filter sidebar. A 'Feedback' button is visible in the bottom right corner of the search results area.

1 The **SEARCH BAR** appears towards the top of every page.

TIP: To see more search options quickly, run a search without any search terms.

Searches retrieve results if they are found in a headline or article text. Searches do not search within tags—use filters to restrict results based on tags.

2 **TIP:** To focus your search, you can restrict your search to headlines only.

3 View our **SEARCH TIPS**, which can be found on any search results page, to ensure you get the most of your searches.

4 There are 10 ways to filter your search results to narrow them down and target your result set to your needs. Filter your results by any combination of: Publication, Industry, Subject, Therapy Area, Device Market Area, Date, Company, Region, Content Type and Media Type.

Search Rules and Techniques: Boolean Search

You can use the Boolean operators AND, OR, NOT to include or exclude results from your search. You can also use parentheses to create nested Boolean searches.

The screenshot shows a search interface with a search bar containing the query "Pfizer AND (Novartis OR Merck)". Below the search bar, there are two search results. The first result is titled "Pfizer Shrugs At Novartis Tekturna Launch" and the second is titled "Merck KGaA Follows Pfizer With Archemix Deal For Aptamer-Based Therapeutics". In both titles, the words "Pfizer" and "Novartis" in the first title, and "Merck" and "Pfizer" in the second title, are circled in red. The search interface also shows a date filter for "10 Jun 2016" and a "SORT BY" dropdown menu set to "Date".

EXAMPLES:

Pfizer AND Merck finds articles containing both Pfizer and Merck.

Pfizer OR Merck finds articles containing either Pfizer or Merck.

Pfizer NOT Merck finds articles containing Pfizer, that do not also contain Merck.

Pfizer AND (Novartis OR Merck) finds results containing Novartis and Pfizer, Merck and Pfizer, or all three.

Search Rules and Techniques: Exact Matches

By default, stemming is applied to your search terms to automatically search for word variants. This means that typing the search term develop might also find developer. To search for an exact match, enclose your search terms in quotes.

Generic Daklinza Deal Sets Precedent In HCV **Drug** Licensing

By Ian Schofield

1 Searching for “generic drug” will retrieve only results containing that exact phrase.

2 Searching for generic drug will find results containing generic and drug, but might be separated by other words, or, as a result of stemming the results might contain words with the same stem, such as generics or general.

3 You may also use Boolean operators between separate quoted terms. If you want to find all articles containing the exact words “generic” and “drug”, but not necessarily adjacent to each other or in that order, you can search for “generic” AND “drug”.

Search Rules and Techniques: Wildcards

Using an asterisk (*) at the beginning, middle or end of a word or part of a word will allow you to find matches that include additional letters, as represented by the asterisk.

2 Searching for ***gen** finds articles containing Amgen, oxygen, etc.

3 Searching for **gen*ic** finds articles containing genetic, generic etc.

Customizing Your Results: Sort and Display Options

You have several options to change the search result display.

The screenshot shows a search results page for the term "heart". At the top right, there are links for "EMAIL", "RSS", and "SAVE SEARCH / SET ALERT". The main heading is "Search Results". On the left, there are filter sections for "Publication", "Industry", and "Subject". The "Publication" section is expanded, showing "Medtech Insight (11863)" selected. The search bar contains "heart" and has a "Search" button and "Search Tips" link. Below the search bar, there is a checkbox for "Search headlines only". The results section shows "Showing 1 - 10 of 11,863 results for 'heart'". There is a toggle for "View headlines only" (labeled 1) and a "SORT BY" dropdown menu (labeled 2) currently set to "Date". The first result is a news article titled "Medical Device Startups Shine At AXA PPP Health Tech & You Awards" by Catherine Longworth, dated 28 Apr 2017.

1 Turn on **VIEW HEADLINES ONLY** for a more condensed display feature

2 Sort by Date or Relevance, ascending or descending.

3 Scroll to the bottom of the page to select the number of results per page and navigate to the next page.

This screenshot shows the bottom of the search results page. On the left, the "Subject" filter is expanded, showing "Middle East and Africa (2283)" selected. In the center, there is a "Results Per Page" dropdown menu (labeled 3) with options 10, 20, and 50. To the right, there is a pagination bar with links for 1, 2, 3, 4, 5, and "Last".

Customizing Your Results: Facets and Filtering

What you see is up to you. The search functions across all of our publications – showing the full breadth of content we offer on any given search parameters. Or, you can limit your search to just the publications you subscribe to, or the subject area, region, date range or media type you need.

The screenshot shows a search results page for the term "heart". At the top right, there are links for "EMAIL", "RSS", and "SAVE SEARCH / SET ALERT". The main heading is "Search Results". On the left, there is a "Filter By" sidebar with three sections: "Publication", "Industry", and "Subject". The "Publication" section has a "Select My Subscriptions" button with a circled "1" next to it, and a list of publications with checkboxes: Medtech Insight (checked, 11863), Pink Sheet (8497), Scrip (3739), Rose Sheet (1429), and In Vivo (1426). The "Industry" section has checkboxes for Medical Device (8473), BioPharmaceutical (24), and Consumer (7). The "Subject" section has a circled "2" next to it and checkboxes for Innovation (191), Platform Technologies (187), Regulation (176), Clinical Trials (170), and Business Strategies (126). The main search area has a search box containing "heart", a search button, and a "Search Tips" link. Below the search box is a checkbox for "Search headlines only". The results section shows "Showing 1 - 10 of 11,863 results for 'heart'", a "View headlines only" toggle (OFF), and a "SORT BY" dropdown set to "Date" with "Relevance" as an alternative. Two news items are displayed: "Medical Device Startups Shine At AXA PPP Health Tech & You Awards" by Catherine Longworth, dated 28 Apr 2017, and "The Patient Perspective: Upcoming US FDA Device Center Studies Put Device-Users In Front Seat", dated 25 Apr 2017.

1 **TIP:** Click Select My Subscriptions to view only the publications you subscribe to.

Your most recently selected publications are maintained for your next search. To search all publications, tick the box for each publications or use the Clear

2 **TIP:** Selecting more than one choice within the Subject, Therapy Area, Device Market Area or Region facet retrieves all articles tagged with *any* of the choices. For example, selecting U.S. and Canada displays articles containing either the U.S. tag, Canada tag, or both tags.

Selecting tags in multiple facets retrieves articles that are tagged with at least one selection from the facet. For example, selecting Regulation and Asia Pacific displays articles containing both the Regulation and the Asia Pacific tag.

Customizing Your Results: Facets and Filtering

More tips for using facets and filtering to find only the results you need.

The screenshot shows a search results interface with three numbered callouts:

- 1** Points to the "Date" filter section, which includes radio buttons for "Last 24 hours", "Last 3 days", "Last week", "Last month", "Last year", and "Select date range". Below "Select date range" are two input fields for "From" and "To" with a calendar icon.
- 2** Points to the "Companies" filter section, which shows a search box with "me" and a dropdown list of company names: "Medtronic PLC", "Merck & Co. Inc.", "St. Jude Medical Inc.", "Genzyme Corp.", and "Merck KGaA".
- 3** Points to the "Media Type" filter section, which includes checkboxes for "Chart/Table (41)", "Audio (16)", "Video (6)", and "Infographic (5)".

The main content area displays two news articles:

1 You can click on the calendar icon or enter dates to select a date range. If you are entering a date range, be sure to use day/month/year format. For example, enter January 15, 2020 as 15/01/2020.

2 To use the **Companies** Filter, start typing the company name to choose it from the list. You may see fewer results than searching for a company name by keyword, because a story is not tagged with a company name if the company is simply mentioned in passing.

3 To limit your results to podcasts, videos or other multimedia, use the **Media Type** filter.

Saving and Sharing

Save your search to run again later, turn it into an RSS feed, or share it with a colleague via email. You can also bookmark articles from the results page
