# ConZip® Measures Up

ConZip® is an opioid agonist indicated for the management of moderate to moderately severe chronic pain in adults who require around-the-clock treatment of their pain for an extended period of time.

## All Day Pain Relief

ConZip® provides a novel combination of:

- immediate release tramadol
- extended release tramadol

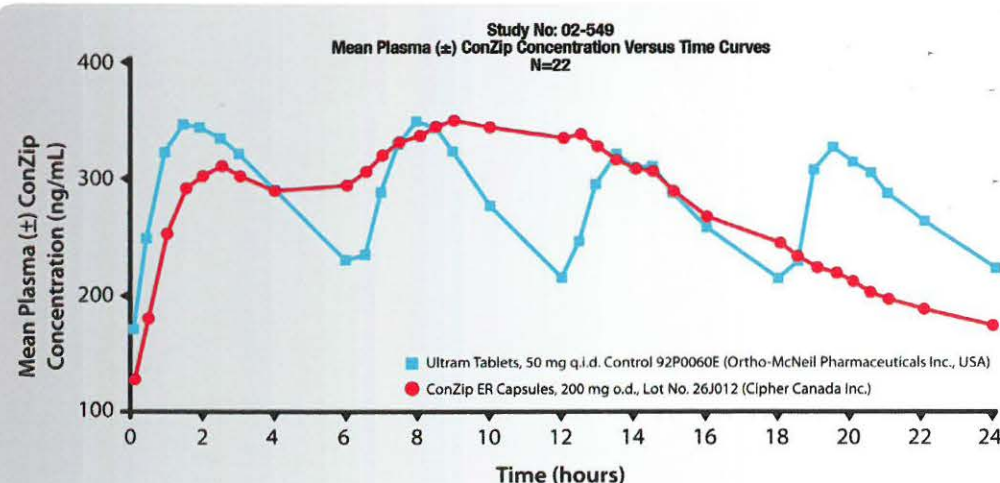

Capsule Strength	Immediate-Release Tramadol	Extended-Release Tramadol
ConZip 100 mg	25 mg	75 mg
ConZip 200 mg	50 mg	150 mg
ConZip 300 mg	50 mg	250 mg

ConZip® is classified as a schedule IV controlled substance by federal regulation.

## ConZip's® Biphasic Formula Compared to Tramadol IR

One pill of ConZip® exhibits concentrations similar to four Tramadol IR pills

Steady State Plasma Concentrations:  
ConZip 200 mg  
vs. Tramadol IR  
50 mg<sup>1</sup>

## ConZip's® Biphasic Formula Compared to Tramadol ER

Faster initial absorption and bioequivalent to Tramadol ER

Steady State Plasma Concentrations:  
ConZip 200 mg  
vs. Tramadol ER  
200 mg<sup>1</sup>
