Human Medicines Evaluation

Member states contact points for review of national versions of the content of mobile scanning and other technologies

Review of 'additional' information as per Article 62 of Directive 2001/83/EC

National competent authorities (NCAs) contact points to be contacted before launch for the review of national versions of the content of mobile technologies content when information other than statutory is provided (i.e. additional information).

This review is not applicable when only statutory information is provided via the mobile technology (i.e. full/partial package leaflet, SmPC or educational material as outlined in Risk Management Plan).

Member State	Contact point
Austria	cp@ages.at
