3.5. Other post-designation procedures for orphan-designated products	16
3.6. How to check if an Orphan Drug Sponsor (Location of an organisation) has associated Regulatory entitlements	17
4. Scientific Advice	17
4.1. Create an application for an Initial Scientific Advice (Human)	17
4.2. Create an application for other Scientific Advice procedures	18
4.2.1. Initial Scientific Advice – Veterinary	18
4.2.2. Initial Protocol Assistance	18
4.2.3. Initial Qualification Procedure	19
4.2.4. Follow up Scientific Advice – Human	19
4.2.5. Follow up Scientific Advice – Veterinary	19
4.2.6. Follow up Protocol Assistance	19
4.2.7. Follow up Qualification Procedure	20
4.2.8. Transfer a Scientific Advice	20
4.2.9. Clarification on Scientific Advice	21
4.2.10. Scientific Advice FAQ	22
5. ITF Briefing Meeting Requests	22
6. Marketing Status	22
6.1. Marketing Status Notification (Single)	24
6.2. Marketing Status Notification (Bulk Upload)	27
6.3. Marketing Status Withdrawal Notification	31
6.4. Marketing Status Report Dashboard	33

Table of abbreviations

Abbreviation	Explanation
CAP	Centrally Authorised Product
COMP	Committee for Orphan Medicinal Products
EC	European Commission
EU	European Union
EMA	European Medicines Agency
IAM	Identity & Access Management
ITF	Innovation Task Force
LoQ	List of Questions
MS	Member State
OD	Orphan Designation
OMS	Organisation Management Service (part of SPOR)
PD	Parallel Distribution
RPI	Research Product Identifier
SA	Scientific Advice
SPOR	Management Services for Substances, Products, Organisations and Referentials

1. Purpose and context

1.1. Purpose of this guide

This guide has been produced to show applicants how to use the [IRIS](#) platform to prepare and submit an application for a [scientific procedure](#) (orphan designation application, scientific advice, ITF briefing meeting requests, marketing status reports) and related activities.

For [Parallel Distribution](#) procedures separate user access roles are needed and separate guidance is available on the [IRIS home page](#).

1.2. Preliminary requirement

EMA Account and appropriate role: for any type of submission in IRIS, you need an EMA account and an appropriate role in IRIS, to login into IRIS. Registration needs to be done only once and will allow you to submit any type of scientific applications now and in the future. For information on how to request an EMA account and an appropriate IRIS role (these are two separate actions), please consult the separate [IRIS guide to registration](#) and the [quick interactive guide to IRIS registration process](#) on the [IRIS home page](#). This guide also contains information on how to request or transfer an **RPI (Research Product Identifier)**.

1.3. Supported Browsers

IRIS can be accessed on any modern Web Browser, including but not limited to Google Chrome (latest version), Internet Explorer 11 and above, Edge (including the new, Chromium-based Edge), Safari 12 and above, Firefox (latest version), Vivaldi, etc.

2. Common operations for all scientific submission types

2.1. Display and sort submissions

1. From the IRIS home page, after sign-in, click on any of the options: **"Draft Submissions"**, **"Ongoing Submissions"** or **"Completed Submissions"** present under **"Submissions"** Tab;
2. If you have an IRIS Industry Manager role, you will see all the submissions that you have created, plus all the submissions in which you have been added as a contributor. If you have a Contributor role, you will see all the Submissions to which you have been added as a Contributor. If you have both roles, you will see all submissions of your own and those for which you have been added as a Contributor. In all cases, you will see submissions for all the Organisations to which you are affiliated (in IAM);
3. Click on any of the column headings that appear in blue font, and the rows listed in the table will be sorted in ascending order (click again for descending order).

2.2. Search for submissions

1. You can obtain a restricted subset of your submissions: from the IRIS home page, select first **"Draft Submissions"**, **"Ongoing Submissions"** or **"Completed Submissions"**;
2. In the search bar, enter any string (combination of letters and/or numbers) that will identify the submission you are looking for and might be contained in the columns that are displayed on screen

- (e.g. "Submission ID", "Organisation", "Submission Type"); by including an asterisk (*) as first character, the search string will apply to text in any position;
- Click on the magnifying glass search symbol or press "**Enter**" on your keyboard to launch the search;
 - A list of the relevant results that match the search criterion you typed in the search bar will be displayed. The list can be sorted as described in the previous section;
 - In "**Draft submissions**", a menu of different actions can be elicited by clicking on the down arrow to the right of the relevant submission. You can edit or delete the submission, manage the contributors and managers, and change the "**submission contact**" (the person who will receive by default all the email communications for the procedure) (see Figure 1).

Draft Submissions

Search

Parent Submission ID	Submission ID	Submission Type	Sponsor	Subject	Modified On ↓	
EMA/SA/0000170821	EMA/SA/0000170821	Initial Scientific Advice - Human	Office of Health	(-)-(R)-3-(2-HYDROXYMETHYLINDANYL-4-OXY)PHENYL-4,4...	15/09/2020 11:19 AM	⌵
EMA/SA/0000171073	EMA/SA/0000171073	Initial Protocol Assistance	Office of Health		14/09/2020 3:56 PM	
EMA/SA/0000171072	EMA/SA/0000171072	Initial Protocol Assistance	Office of Health		14/09/2020 3:49 PM	
EMA/OD/0000171071	EMA/OD/0000171071	Application for Orphan Designation	Office of Health	(-)-(R)-3-(2-HYDROXYMETHYLINDANYL-	14/09/2020 3:22 PM	⌵

2.3. Create a new submission (general procedure for all submission types)

- From the IRIS home page, click on "**Draft submissions**" sub-tab present under "Submission" tab;
- Click "**Create new submission**" [a screen with the heading "Portal – New Submissions" opens showing 4 stages. The first stage "**1. Choose Sponsor Type**" is highlighted in blue];
- From the drop-down arrow on the box below "**Are you applying as an individual or on behalf of an organisation?**" select the appropriate answer and click "**Next**";
- Only if you are applying on behalf of an organisation:
 - Use the magnifying glass search symbol to look up the organisations available for you to select (N.B. only the organisation(s) affiliated to the portal user role that you logged into the portal as will be displayed here);
 - Pick the right organisation and (there may only be one) and click "**Select**";

- c) Use the search symbol to look up the locations available for you to select, pick the right one and click **"Select"**; please note that the Regulatory entitlement (Orphan Designation) will be granted to the address of this location and the relevant organisation;
NOTE: it is strongly recommended to use only one location (normally the legal seat of the organisation) for all IRIS submissions, RPIs and regulatory entitlements. This simplifies your management of submissions in IRIS.
5. **"Choose Submission Type"** is now coloured blue and 3 mandatory fields (marked with a red asterisk **"*"**) appear labelled **"Organisation"** **"Location"** and **"Submission Type"** (the first two only if you are applying on behalf of an organisation). Use the search symbol to look up the submission types available, click on the appropriate submission type and then on **"Select"**;
 6. Add at least one Manager in the specific field (when applying on behalf of an organisation, the popup list will only include those people who have been granted an IRIS Industry Manager access role that is affiliated to the specific organisation (Company + Country) you selected in the previous screen. If no-one has done this, the list will be empty). **It is strongly recommended to have at least two Managers (preferably three) for each IRIS submission:** this will allow the applicant continued access to the submission even if one the managers leaves the company or is absent for prolonged periods;
 7. Click **"Create and Next"**. A new screen appears with a reference number (e.g. EMA/XX/0000001234) for your draft submission displayed on the upper right-hand side of the "Portal – New Submission" screen (N.B. It is a good idea to take note of the reference number created). There is also now a list of various tabs (steps) including **"Select RPI"** and ending with **"Declaration"**) relating to the submission reference displayed on the left-hand side of your screen (see Figure 2).

Figure 2: Example of new submission

8. Click on **"Select RPI"** to bring up "Research Product Identifier (RPI)" screen:
 - a. Click the **magnifying glass** search symbol to bring up a list of RPI names;
 - b. In the pop-up window, pick an RPI name from the list and click **"Select"**;

- c. Back in the "Research Product Identifier (RPI)" screen, click "**Save and Return**" and you are returned to the "Submission Form" screen;

If you do not see the RPI for your product in the list:

- An RPI tracks the development of a medicinal product. The RPI remains the same when the name of the substance(s) in the product changes, or when development of the product is transferred to a different product. If you have already submitted an application to EMA for your product, it is very likely that an RPI already exists, and that one should be used.
- RPIs are assigned to an OMS Location (specific address), not to a parent organisation. Consequently when creating a submission in the name of a specific location, only those RPIs assigned to that location can be chosen. **It is therefore recommended that all RPIs (and regulatory entitlement) for an organisation are assigned to the same location (normally the legal seat of the organisation).**
- The RPI may already exist, but "owned" by another sister company in the same or a different country, a different company or a consultant, or it may be assigned to a different location of your organisation. In such cases, it won't appear in the selection list, and you need either to request affiliation to the RPI "owner", or the "owner" should transfer the RPI to your company, depending on which company should be the sponsor of the orphan designation. To transfer an RPI reference the [IRIS guide to registration](#) section 8.3. "*Transfer a Research Product Identifier (RPI)*".
- If you are sure that no RPI exists for the medicinal product yet, please request one via IRIS following [IRIS guide to registration](#) section 8.2. "*How to request a new RPI*". This is a separate submission. After receiving communication from EMA that your RPI has been created, you can **go back to your draft submission and** proceed to the steps below.
- If your RPI is intended to cover **multiple products** or a **methodology/ technology** or a **method** or **other** (not a single product), please contact ITFSecretariat@ema.europa.eu or SA_Submissions@ema.europa.eu beforehand (depending on your intended procedure type). You will be requested to complete a specific Word form. Upon receipt of the form the secretariat will create an RPI for you. These 'special' RPIs cannot be requested via IRIS.

9. Click on "**Additional product information/update**":

- a. Make sure that the list of innovation/enabling technologies includes at least one term; if not, choose at least one with the "**Add**" button;
- b. Click "**Save and return**".

10. Once the RPI data (and any other mandatory sections) are completed, all the sections (tabs) will turn from grey to blue and will be active (see Figure 2). Fill in each section. Please note that fields with a red asterisk are mandatory. You need to complete each section before you can save it, but it is not mandatory to fill in all the section in one session;

11. Back in the main "**Submission Form**" Screen, click on "**Documents from Applicant**":

- a. In the next screen that appears, you can directly upload documents and create subfolders in your submission. While there is no maximum number of files or global size, there is a size limit of 50 Mb per file. Please upload individual files for each document, rather than a single Zip file (or similar) for the set of all documents. A Zip file is acceptable only as the container for the literature references;
- b. Click "**Save and Return**" when you have finished uploading documents;

12. At any stage during the procedure above, clicking **"Return"** on the Submission form page saves the draft submission (which will now appear in your **"Draft Submissions"** list). You can open it again at a later time to edit/add more information;
13. Click on **"Generate Application form"** present at bottom of screen next to **"Return"** button to create a word file for the summary of application filled at that point of time by the applicant. Word file will be shown under **"Documents from Applicant"**;
14. When you are ready to submit your final application, click on **"Declaration and re(submission)"**:
 - a. **Click on the tick box** to the left of the declaration statement (that begins with the words: "I confirm...") to formally declare that you are authorised to submit the application;
 - b. Click on the **"Declaration and submission"** button;
 - c. If you are unsure or think of any part of the application you want to revise, click **"Review Application"** and this will return you to the draft submission;
 - d. If you are sure you want to submit the application, click "Submit".

Your application has now been submitted and is locked for edit/upload unless EMA opens it up again for you to add or amend any information or documents.

You are then returned to the portal **"Ongoing Submissions"** tab. You can now look up the submission you have just submitted using the **"Ongoing Submission"**. The latest submission will appear on top once validation is completed in background, as submissions are sorted by date and time of last update.

2.4. Communication only to the Submission Contact (Portal contact) for a submission

The communication model for IRIS is that while there can be any number of Industry managers and Industry contributors associated to a single submission, only one of them is the "submission contact", also called the "portal contact" i.e. the primary contact person to whom all communication is sent (by default) for a given submission. The default "submission contact" is the Industry manager who submits the application.

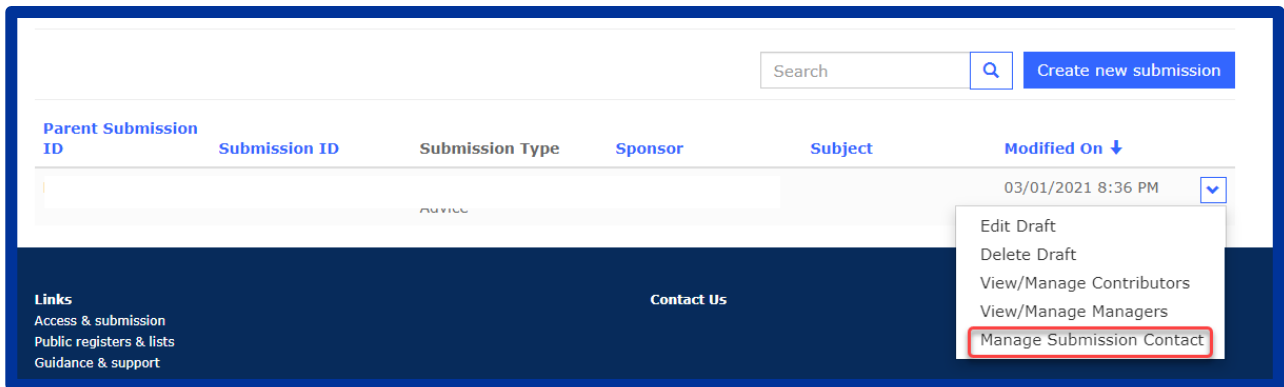

The **"submission contact"** role can be reassigned at any moment, and repeatedly, by any of the Industry managers associated to that submission, but the EMA users of the IRIS system will send **communications** only to the **"submission contact"**, by default. This is for efficiency and security reasons.

Applicants can nominate additional Industry managers and reassign the "submission contact" role as required, for example before a period of leave of the "submission contact". This can be done in IRIS, by clicking on the V to the right of the submission and selecting "Manage submission contact", as shown in Figure 3 and below.

In addition, applicants may also wish to set up appropriate auto-forwarding rules in the email system of the "submission contact".

IRIS is being built to allow applicants to self-manage their "submission contact" role for each submission. In future, EMA plans to extend this concept to self-management of the contact person and contact data for interested parties assigned to Regulatory Entitlement, and potentially also for Authorisation Products. Changes will be made by sponsor/marketing authorisation holders directly in the IRIS Industry portal.

Figure 3 Changing Submission (Portal) Contact

From the IRIS home page, carry out the following steps (see also Figure 1):

1. Click on "**Draft submissions**" / "**Ongoing submission**" sub-tab present under "**Submission**" tab;
2. Scroll down and find the application you want from the list of your drafts;
3. On the right hand side, click on the drop-down arrow and select "Manage Submission Contact" (Figure 3);
4. Click "**Change submission contact**", then In the pop-up window, select the name of the person you want to add as portal contact and click on "select" (the list shows all managers associated with that submission).
5. New portal contact will be shown in "Portal contact" field.
6. Click on "Save and Return"

2.5. Add managers to a draft/ongoing submission

You can insert additional managers to a submission also after the creation of submission, but only if the submission is in draft or ongoing status, not if the procedure has been completed. You can only do this for the draft applications for which you have a "**Manager**" role (not if you are a Contributor).

Managers can edit, submit or withdraw the application. From the IRIS home page, carry out the following steps (see also Figure 1):

1. Click on "**Draft submissions**" / "**Ongoing submission**" sub-tab present under "**Submission**" tab;
2. Scroll down and find the application you want from the list of your drafts;
3. On the right hand side, click on the drop-down arrow and select "View/Manage Managers" as Figure 3;
4. Click "**Add**", then In the pop-up window, click the **magnifying glass search symbol** to bring up a list (and find the name you want to add as a contributor);
5. Click "**Add**" again;
6. To add more managers to the same application, repeat the steps above.

2.6. Add contributors to a draft submission

You can only do this for the draft applications for which you have a **“Manager”** role (not if you are a Contributor). Contributors can only edit, but not submit or withdraw the application.

From the IRIS home page, carry out the following steps (see also Figure 1):

1. Click on **“Draft submissions”** sub-tab present under **“Submission”** tab;
2. Scroll down and find the application you want from the list of your drafts;
3. On the right hand side, click on the drop-down arrow and select **“View/Manage Contributors”**;
4. Click **“Add”**, then In the pop-up window, click the **magnifying glass search symbol** to bring up a list (and find the name you want to add as a contributor);
5. Click **“Continue to submission form”**;
6. To add more contributors to the same application, repeat the steps above.

2.7. Delete a draft submission

You can only do this for the draft applications for which you have a **“Manager”** role (not if you are a Contributor). Note: you cannot delete a **“completed submission”**; an **“ongoing submission”** can be withdrawn, using a similar procedure.

1. Click on **“Draft submissions”** sub-tab present under **“Submission”** tab;
2. Find the application you want from the list of your drafts;
3. On the right hand side, click on the drop-down arrow and select **“Delete Draft”** and a confirmation message will open up in a new window (see Figure 1);
4. Click on the **“Delete”** button to confirm that you want to delete your draft. Note: you cannot undo this afterwards, and the draft submission is permanently deleted from IRIS and cannot be restored.

2.8. Automatic deletion of draft submissions

IRIS will scan all the submissions to identify those that have been inactive (no change in data) for more than 7 months, and send an email to the submission contact (a.k.a. portal contact) to inform of the upcoming deletion of the submission unless a change is made to the submission in the following 2 weeks.

If no change is made to the submission during that time, it will be deleted and definitively removed from the IRIS system, including any documents uploaded to IRIS. A final email will be sent to the submission contact, to notify the permanent removal of the submission from the system

2.9. Respond to a notification email from EMA requesting changes

On receipt of a notification email from EMA stating for example that **“Validation Supplementary Information (VSI)”** relating to one of your Ongoing Submissions is required, or other changes/updates to the submission data, log into the IRIS portal and carry out the following steps:

1. From the IRIS home page, click on **“Ongoing submissions”** sub-tab present under **“Submission”** tab;
2. Locate the submission mentioned in the e-mail by using the sort or search features described in this Guide, or by just scrolling down the list until you find it;

3. At the end of the row in the list where your submission appears, click on the drop-down arrow and select "**View/edit**";
4. In the "**Submission Form**" page that appears click on the sections that you need to update as stated in the notification you received from EMA (e.g.: General Information, Scientific information, etc.);
5. The selected sections will open in edit mode - make the requested modifications and click on "**Save and Return**" - all modifications will have been saved and you will return to the "**Submission Form**" page;
6. If you need to upload updated or new documents, click on "**Documents from Applicant**". Click on "**Save and Return**" when you are done;
7. **Click on the tick box** to the left of the declaration statement (that begins with the words: "I confirm...") to formally declare that you are authorised to submit this request;
8. Click on the "**Declaration and submission**" button;
9. If you are sure you want to submit the application, click "**Submit**", then "**Ok**" and then "**Submit**".

2.10. Respond to a List of Questions (LoQ) request

On receipt of a notification email from EMA regarding a "List of Questions (LoQ)" relating to one of your Ongoing Submissions, after validation and start of procedure, you can upload revised/new documents, but you cannot modify the submission data in the portal. Log into the IRIS portal and carry out the following steps:

1. From the IRIS home page, click on "**Ongoing submissions**" sub-tab present under "**Submission**" tab;
2. Locate the submission mentioned in the e-mail;
3. At the end of the row in the list where your submission appears, click on the drop-down arrow and select "**View/edit**";
4. Click on "**Documents from Applicant**"; click on "**Save and Return**" when you are done;
5. **Click on the tick box** to the left of the declaration statement (that begins with the words: "I confirm...") to formally declare that you are authorised to submit this request;
6. Click on the "**Declaration and submission**" button;
7. If you are sure you want to submit the application, click "**Submit**", then "**OK**" and then "**Submit**".

Your updated application has now been submitted and will appear in your "**Ongoing Submissions**" list and you will receive an e-mail notification to confirm that you have re-submitted the application as requested by EMA.

2.11. Check the current status of an ongoing Submission in the IRIS Portal

The possible status for the Applicant's submission (see Figure 4) and the EMA procedure (case) (see Figure 5) are shown in the following tables:

Figure 4: Submission Status

Submission Status	Notes
Draft	The application is in draft status and can be deleted or submitted (when finalized)
In Progress	Application submitted; case ongoing at EMA
Withdrawal Requested	The applicant has requested a withdrawal, which is being assessed at EMA.
Completed-Positive	Case closed, positive outcome
Completed-Negative	Case closed, negative outcome
Completed-Withdrawn	Case closed as withdrawn, at the applicant's request.

Figure 5: Case Status

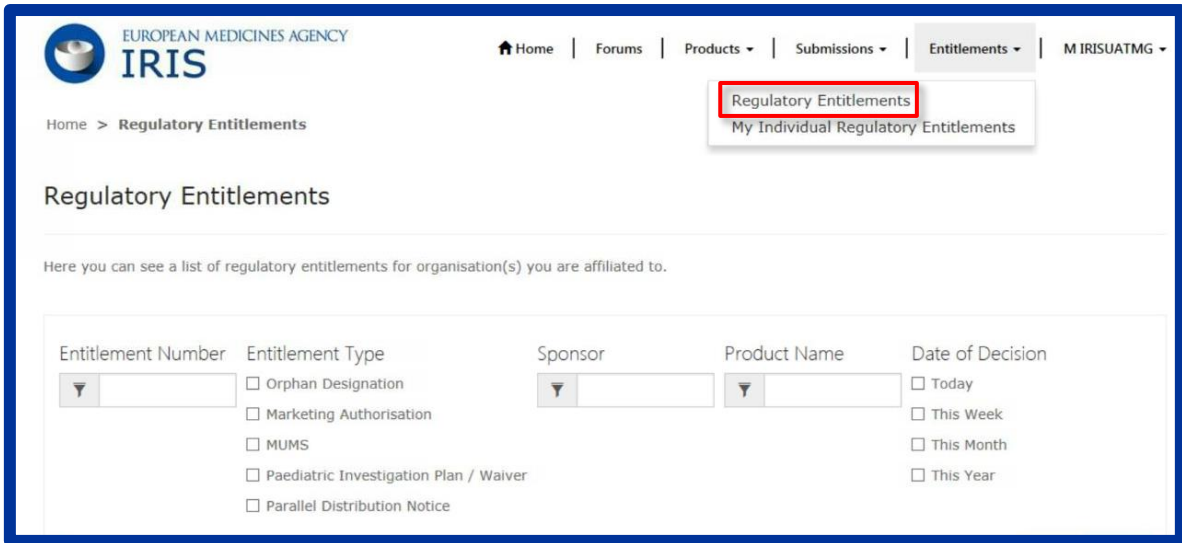

Case Status	Notes
Submitted	Application received by EMA
In Progress	Under validation by EMA
Start of Procedure	Evaluation team assigned
Under Evaluation by EMA	
For list of Questions/Opinion	At the next Committee meeting, either an Opinion or a List of Questions will be adopted
For Opinion	At the next Committee meeting, an Opinion will be adopted
Opinion Adopted	The EMA Committee has adopted an Opinion
Under Appeal	Appeal of the opinion ongoing
Pending EC Decision	The Opinion has been submitted to the European Commission
Pending Resolution	The Case (procedure) is about to be closed
Withdrawal Requested	The withdrawal requested by the applicant is being evaluated
Positive	A positive decision has been adopted by the EU (or EMA). The case is closed.
Negative	A negative decision has been adopted by the EU (or EMA). The case closed.
Closed	The case has been closed by EMA before an Opinion was adopted.
Completed	The case has been completed, but no positive or negative Opinion has been adopted (e.g. Scientific Advice completion)
Withdrawn	The case has been closed as withdrawn, at the request of the applicant
Validation unsuccessful	The submission could not be validated by EMA, and the case is thus closed. It is possible to prepare a new submission.
Waiting for Details	The applicant is expected to provide additional details.

2.12. Regulatory Entitlements Affiliation

2.12.1. Regulatory Entitlements

This tab enables you to see a list of all regulatory entitlements related to the organisation(s) you are affiliated to. It is possible to filter the regulatory entitlements by entitlement number, entitlement type, sponsor, product name, EU number, and date of decision (see Figure 6).

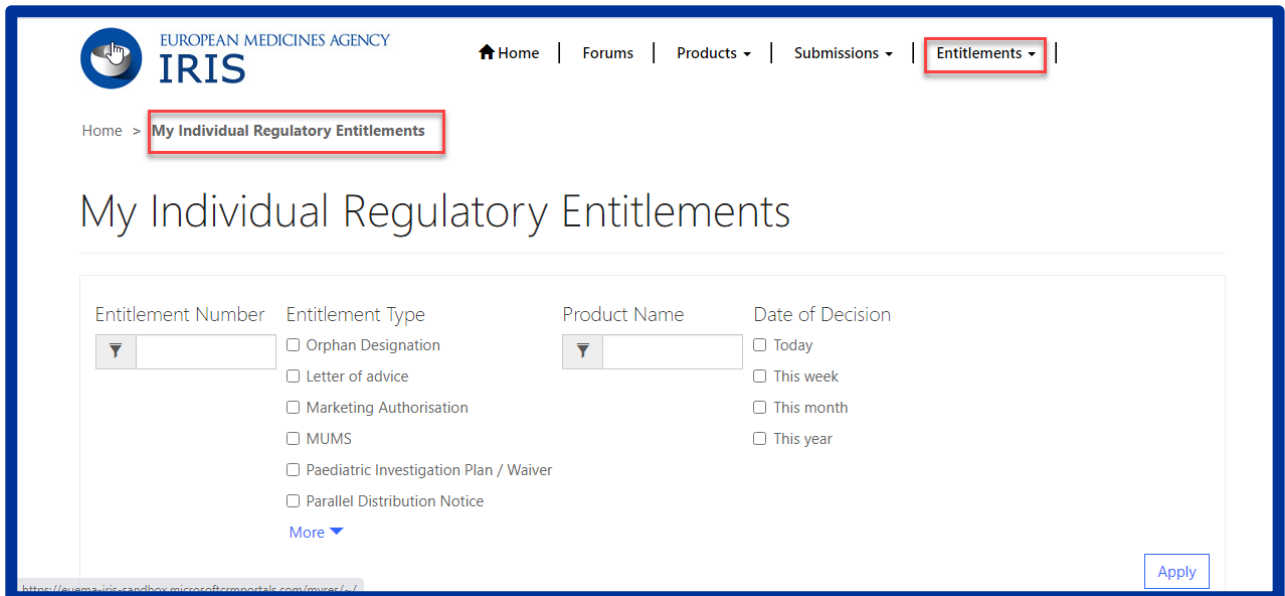

Figure 6: Regulatory Entitlements

2.12.2. My Individual Regulatory Entitlements

The tab enables you to see the list of all regulatory entitlements that were granted as an outcome of submissions created by you. It is possible to filter the regulatory entitlements by entitlement number, entitlement type, product name and date of decision.

Figure 7: My Individual Regulatory Entitlements

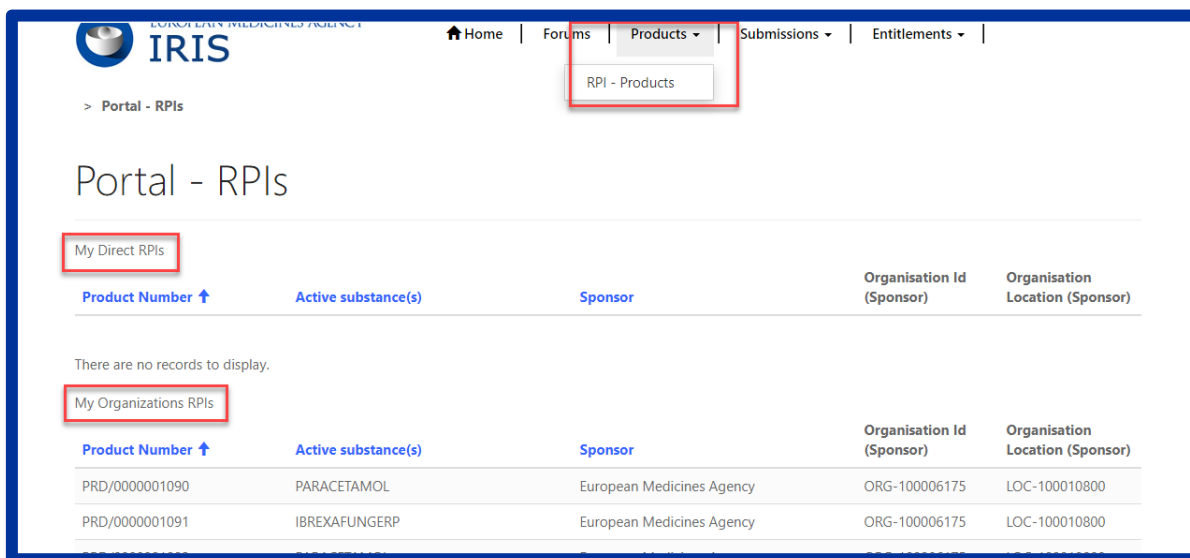

2.13. Products - Research Product Identifiers (RPI)

It is also possible to see all RPIs (Research Product Identifier) for which you are the sponsor, either individually or via an affiliation to one or more companies. Two views are shown (see Figure 8).

1. "My Direct RPIs", which displays all active RPIs for which you are a direct sponsor.

2. "My Organizations RPIs" shows active RPIs for all organization locations you are affiliated to (in any of the locations).

Figure 8: Product- View of RPI's

3. Orphan submissions

For general information on orphan designation and allied procedures, please consult the Orphan Designation page of the EMA website. For specific information on how to prepare a specific Orphan submission, including how to prepare the Scientific Document, please see the specific sections on the Orphan Designation page.

3.1. Create an application for orphan designation

In addition to the steps in the general procedure described in Section 2.3. "Create a new submission (general procedure for all submission types)", please note the specific issues for Orphan Designation below:

1. The reference number will have "OD" in it (e.g. EMA/OD/0000001234) for your draft submission displayed on the upper right-hand side of the "Portal – New Submission" screen (see Figure 9).

Figure 9: Application for orphan designation, main screen

The screenshot shows the 'Submission Form' page for an Orphan Designation application in the IRIS system. At the top, the European Medicines Agency logo and 'IRIS' are visible, along with navigation links for Home, Forums, Submissions, My Organisations Regulatory Entitlements, and a user profile 'Clune indmgr'. The breadcrumb trail is 'Home > Draft Submissions > Submission Form'. The main heading is 'Submission Form'. A red box highlights the application details: 'Application for Orphan Designation' and 'Reference: EMA/OD/0000171071'. Below this, a note states: 'Please make sure that the required sections have a green tick to the right (except "Documents from EMA") before submitting the application. (Note: the "Documents from EMA" section is not relevant for Marketing Status Reporting submissions and therefore does not appear)'. The customer information is: 'Customer Name : Office of Health' and 'Address : Åulestrasse 512 Vaduz 9490 Liechtenstein'. A list of sections follows, each with a green checkmark indicating completion: 'Select RPI', 'Research Product Information', 'Additional product information/update', 'General Information', 'Scientific information', 'Documents from Applicant', 'Documents from EMA', and 'Declaration and (re)submission'.

2. The sections (tabs) of the submission are: **"General Information"** and **"Scientific Information"**. Complete (at least) the mandatory fields marked with a red asterisk "*" and click **"Save and Return"** (N.B. in the prevalence box, enter the prevalence per 10,000 persons in the EU population, as a single number (normally, from 0 to 5.0) and NOT in the form of a ratio). See Figure 9.

3.2. Request a Pre-Submission Meeting (for OD)

1. **IMPORTANT:** Before creating a request for a **pre-submission meeting**, please create the draft submission for the orphan designations as described above. This must be left as a draft, without submitting it for the moment. Any documents should be uploaded within the draft submission for orphan designations, not in the pre-submission meeting request. The number of the draft request for orphan designation should be referenced in the pre-submission meeting request;
2. Select **"Request for Pre-Submission Meeting"** as submission type;
3. Click **"Continue to submission form"** and a number (e.g. EMA/OD/0000001234) for your draft submission is displayed on the upper right-hand side of the "Portal – New Submission" screen (N.B. It is a good idea to take note of the reference number created);
4. Back in the Submission Form screen, click on **"Submission Details"**, enter the information that you want the EMA Orphan Medicines team to know and click **"Save and Return"**;
5. Follow steps 13 and 14 from Section 2.3. "Create a new submission (general procedure for all submission types)" above;
6. Your request for a Pre-Submission Meeting has now been submitted and will appear in your **"Ongoing Submissions"** list.

3.3. Request an Appeal (of a COMP Opinion)

In addition to the steps in the general procedure as described in Section 2.3. "Create a new submission (general procedure for all submission types)", note the following:

1. As submission type, click on **"Appeal"** and then click **"Select"**;
2. Click **"Create and Next"** – you will see the message "processing..." for a short while;
3. Click **"Continue to submission form"**;
4. Click on **"Start Appeal"** and the "View Start Appeal Form" screen appears;
 - a. Click on the magnifying glass to select the procedure to be appealed – only cases which have been submitted and are currently in ongoing status are displayed;
 - b. Click on one of the procedures listed then click **"Select"** and **"Submit"**;
5. From the **"Submission Form"** screen, click on the **"Ground of appeal"** Section; fill in the relevant information in the mandatory "Applicant's grounds for appeal *****" box and click **"Save and Return"**;

3.4. Submit an Annual Report for an orphan designation

The process for submitting Annual Reports has now been simplified. Applicants are not requested to compile and submit the previous PDF form, which has been removed from the website. It is now only necessary to complete the information in a few specific data fields in IRIS. Uploading additional supporting documents is still possible but not mandatory.

In addition to the steps in the general procedure as described in Section 2.3. "Create a new submission (general procedure for all submission types)", note the following additional points:

1. As submission type, click on **"Annual Report"** and then click **"Select"**;
2. Click **"Create and Next"** and then click **"Continue to submission form"**;
3. Click on **"Regulatory Entitlement"** (a generic term for a right granted to a sponsor such as an orphan designation or a transfer of orphan designation);
 - a. In the "Regulatory Entitlement" window, **click on the magnifying glass symbol** to search through the existing orphan designations for your organisation;
 - b. Select the orphan designation for which you are submitting the Annual Report and click **"Save and Return"**. If you cannot find your orphan designation, please contact the Orphan medicines office;
4. Click on **"Scientific content"** and complete the information in the data fields, amending the prefilled fields where appropriate. All fields with an asterisk are mandatory. Click on **"Save and Return"**;
5. Back in the Submission Form screen, click on **"Submission Notes"**, enter any additional free-text information that you want the EMA Orphan Medicines team to know and click **"Save and Return"**.

3.5. Other post-designation procedures for orphan-designated products

All other post-designation procedures for existing orphan designations should be submitted via IRIS, choosing the appropriate procedure type. These include:

- Submission of a report for the Maintenance of the Designation Criteria at Marketing authorisation (or extensions);
- Submission of a report for a Review of the Designation criteria after 5 years;
- Request for an Amendment of an existing Orphan designation (to change the condition);
- Request to transfer an Orphan Designation;

- Request of removal of an Orphan designation from the EC Orphan register;
- Change of name and/or address of the Sponsor of an orphan designation.

The procedures are very similar to the general procedure as described in Create a new submission (general procedure for all submission types), and are not listed for brevity. For general information on these submission types, see the [Activities after orphan designation](#) webpage in the main EMA website.

3.6. How to check if an Orphan Drug Sponsor (Location of an organisation) has associated Regulatory entitlements

Go to https://ec.europa.eu/health/documents/community-register/html/reg_od_act.htm?sort=a and search for EU product e.g. EU/3/19/2181.

Click on the EU number from the search results. For field "Sponsor" -Organisation name and location will be mentioned. This location has Regulatory entitlements and the same can be selected in IRIS while drafting a form.

4. Scientific Advice

For general information on Scientific Advice, please consult the [Scientific advice and protocol assistance](#) section of the EMA website. For specific information on how to prepare a Scientific Advice submission, including the Scientific Document (Briefing Document), please see the [How to submit a scientific advice or protocol assistance request](#) section on the EMA website.

4.1. Create an application for an Initial Scientific Advice (Human)

In addition to the steps in the general procedure as described in Section 2.3. "Create a new submission (general procedure for all submission types)", select "**Initial Scientific Advice-Human**" as the submission type. Note the following additional points:

1. The reference number will contain SA (e.g. EMA/SA/0000001234) for your draft submission displayed on the upper right-hand side of the "Portal – New Submission" screen;
2. There is a list of eleven steps (tabs) starting with "Administrative Information" and ending with "Declaration" relating to the SA Application displayed on the left-hand side of your screen; the two sections "**Administrative Information**" and "**Select Primary RPI**" must be completed, before the other sections (tabs) become available (they turn from grey to blue);
3. You can optionally select additional (secondary) RPIs to link to your procedure by clicking on "**Add Additional RPIs**" (see Figure 10). Note that only RPIs "owned" by the same applicant can be added;
4. You can also add "**Submission Notes**" with additional information in scientific advice forms. This field can be used to specify why the procedure qualifies for not following standard deadlines (e.g., COVID rapid request).
5. Some sections/tabs may not be applicable, e.g. "Parallel Consultation EMA/EUnetHTA"; however, at least the mandatory field(s) marked with a red asterisk "*" should be completed.

4.2. Create an application for other Scientific Advice procedures

4.2.1. Initial Scientific Advice – Veterinary

Follow the steps in the general procedure as described in Section 2.3 “Create a new submission (general procedure for all submission types)”, selecting “**Initial Scientific Advice-Veterinary**” as submission type.

4.2.2. Initial Protocol Assistance

Protocol Assistance is Scientific Advice for designated orphan medicinal products. In addition to questions on quality, safety and clinical aspects, questions on significant benefit may also be discussed.

In addition to the steps in the general procedure as described in Section 2.3. “Create a new submission (general procedure for all submission types)”, note the following additional points:

- The applicant must be the same as the Orphan Designation Sponsor;
- While drafting this type of application, applicant cannot proceed further than “**Orphan Designation**” until an existing orphan designation (or at least a positive opinion date), for a product belonging to the same customer, has been selected first and associated to the submission. It is possible to submit the application after a COMP Opinion has been adopted, but before the formal Decision by the European Commission, by choosing the ongoing procedure instead of an Orphan Designation; however, the Decision must be adopted before the start date of the Protocol Assistance procedure;

- Please note that several fields will be prepopulated from the associated orphan case and cannot be changed. These include the RPI and the medical condition (which must be the same as the orphan condition in the designation, by law).

4.2.3. Initial Qualification Procedure

In addition to the steps in the general procedure as described in Section 2.3. "Create a new submission (general procedure for all submission types)", note the following additional points:

1. Select "**Initial Qualification Procedure**" as submission type.

4.2.4. Follow up Scientific Advice – Human

In addition to the steps in the general procedure as described in Section 2.3. "Create a new submission (general procedure for all submission types)", note the following additional points:

2. Select "**Follow up Scientific Advice-Human**" as submission type;
3. You will be able to proceed only by selecting a previously completed Scientific Advice procedure (chosen from the popup list, showing procedure number and condition for all scientific advices, from any applicant). This is done in section "**Select Previous Scientific Advice**" for selection;
4. An RPI is mandatory; if the RPI was present in the previous Scientific Advice, it will be added automatically, otherwise it is necessary to choose an existing RPI (assigned to the same location);
5. Please note that several fields will be prepopulated from the previously completed initial scientific advice case and cannot be changed. These include the RPI, the medical condition, and the areas of advice. Only previously discussed areas of advice (or a subset) can be included in a follow-up procedure.

4.2.5. Follow up Scientific Advice – Veterinary

In addition to the steps in the general procedure as described in Section 2.3. "Create a new submission (general procedure for all submission types)", note the following additional points:

- Select "**Follow up Scientific Advice-Veterinary**" as submission type;
- You will be able to proceed only after selecting a previously completed Scientific Advice – Veterinary procedure;
- An RPI is mandatory; if the RPI was present in the previous Scientific Advice, it will be added automatically, otherwise it is necessary to choose an existing RPI (assigned to the same location).

4.2.6. Follow up Protocol Assistance

In addition to the steps in the general procedure as described in Section 2.3. "Create a new submission (general procedure for all submission types)", note the following additional points:

- Select "**Follow up Protocol Assistance**" as submission type. Please note that it is possible to select this procedure type even if the previous submission was made for Scientific Advice, rather than protocol Assistance;
- You will be able to proceed only after selecting a previously completed Scientific Advice or Protocol Assistance procedure. These appear in the section "**Select Previous Scientific Advice**" for selection;

- While drafting this type of application, applicant cannot proceed further than **“Orphan Designation”** until an existing orphan designation (or at least a positive opinion date), for a product belonging to the same customer, has been selected first and associated to the submission. It is possible to submit the application after a COMP Opinion has been adopted, but before the formal Decision by the European Commission, by choosing the ongoing procedure instead of an Orphan Designation; however, the Decision must be adopted before the start date of the Protocol Assistance procedure;
- Please note that several fields will be prepopulated from the associated orphan case and cannot be changed. These include the RPI and the medical condition (which must be the same as the orphan condition in the designation, by law).

4.2.7. Follow up Qualification Procedure

In addition to the steps in the general procedure as described in Section 2.3. “Create a new submission (general procedure for all submission types)”, note the following additional points:

- Select **“Follow up Qualification Procedure”** as submission type;
- You will be able to proceed only after selecting a previously completed Qualification procedure. These appear in section **“Select Previous Scientific Advice”** for selection.

4.2.8. Transfer a Scientific Advice

Owners of Scientific Advice regulatory entitlements (Letters of Advice) are now able to transfer regulatory entitlements automatically to another owner, similarly to the RPI transfer process. Only scientific advice entitlements can be transferred with this new automated process, which is necessary when the applicant for a follow-up scientific advice or protocol assistance is not the same as the initial advice.

In addition to the steps in the general procedure as described in Section 2.3. “Create a new submission (general procedure for all submission types)”, note the following additional points:

- Select **“Transfer a scientific Advice”** as submission type.
- The reference number will contain SA (e.g. EMA/SA/0000001234) for your draft submission displayed on the upper right-hand side of the “Portal – New Submission” screen;

The following four tabs will appear as shown in Figure 11:

1. **Select Scientific Advice to be transferred:** Click on the tab and a new screen will open. Select the desired submission to be transferred, using the search icon option if necessary, and click on **“Save and Return”**;
2. **Transfer details:** Click on the tab and a new screen will open. Here the current sponsor details will be shown in **“read-only”** mode and below you can add the **“New Sponsor Type”** as Organisation/Individual, then select the **“New Organisation”**. The organisation address will be shown in read-only mode. Once all details have been added, click on **“Save and Return”**.
3. **Declaration:** Click on the tab and a new screen will open. Select the checkbox for the declaration and click on **“Save and Return”**;
4. **Submit Application:** Once all the above tabs have been filled and green check marks show, the **“Submit Application”** button becomes enabled. Click on it and a new screen opens, select the checkbox asking for confirmation, and click on **“Submit Button”** box. A pop-up window will

appear, giving you a final opportunity to go back and check that all the details have been entered correctly ("Review Application"), or continue and submit.

Once submitted, the Submission will be shown in "**Outgoing**" tab and the product will be updated with new sponsor type as mentioned while filling the form.

4.2.9. Clarification on Scientific Advice

Users can request clarification on a closed Scientific Advice case related to an Initial Scientific Advice or Follow Up Scientific Advice by submitting a request "Clarification on scientific advice" in IRIS.

In addition to the steps in the general procedure as described in Section 2.3. "Create a new submission (general procedure for all submission types)", note the following additional points:

- Select "**Clarification on scientific advice**" as submission type. The reference number will contain SA (e.g. EMA/SA/0000001234) for your draft submission displayed on the upper right-hand side of the "Portal – New Submission" screen;

The following six tabs will be shown:

1. **Select previous Advice:** Click on the magnifier of this field, and a new screen will open. Select the desired submission. Click on "**Save and Return**";
2. **Grounds for Clarification:** Once a previous advice is selected, this tab is enabled for you to add the notes (Figure 12). Once added, click on "**Save and Return**";

Figure 12 adding notes for clarification

Save and Return

3. **Documents from Applicant:** It is possible to add documents under this tab. Select that declaration confirming documents have been attached and click on **"Save and Return"**;
4. **Documents from EMA:** Can be skipped as part of drafting process;
5. **Declaration:** Click on this tab, and a new screen appears. Select the checkbox for the declaration and click on **"Save and Return"**;
6. **Submit Application:** Once all the above tabs have been filled and green check marks show, the **"Submit Application"** button becomes enabled. Click on it and a new screen opens, select the checkbox asking for confirmation, and click on **"Submit Button"** box. A pop-up window will appear, giving you a final opportunity to go back and check that all the details have been entered correctly ("Review Application"), or continue and submit.

Once submitted, the Submission will be shown in **"Outgoing"** tab and the product will be updated with new sponsor type as mentioned while filling the form.

4.2.10. Scientific Advice FAQ

Frequently asked questions related to Scientific Advice can be found in "Forums" tab in [IRIS](#) website.

5. ITF Briefing Meeting Requests

In addition to the steps in the general procedure as described in Section 2.3. "Create a new submission (general procedure for all submission types)", note the following additional points:

- Select **"ITF Briefing Meeting Request"** as submission type;
- The section **"Documents from applicant"** is available to upload any supporting documents;
- The section **"Documents from EMA"** is where you can find any documents provided by EMA to you, including the minutes from the meeting.

6. Marketing Status

There are three submission types that can be used to address the market changes in IRIS portal

1. **Marketing Status Notification (Single)**- This function allows to report the same change in marketing status affecting one or more presentations of a CAP (centrally authorised product) in one or more MS (e.g. placing on the market of 3 presentations in 5 Member States on the same day). Please follow the steps mentioned in 6.1.
2. **Marketing Status Notification (Bulk Upload)**- This function enables to report several different changes in marketing status affecting one or multiple presentations in one or multiple MS, by uploading an excel spreadsheet (e.g. placing on the market of presentation B in CZ, AT and NL + marketing cessation of presentation A in IT on different dates).Please follow the steps mentioned 6.2.
3. **Marketing Status Withdrawal Notification**- This function allows to report
 - A request for **withdrawal of the central marketing authorisation** of your product (This would not replace the formal request to send to the European Commission, see question *How should I request the withdrawal of my central marketing authorisation?*)
 - a **decision not to apply for the renewal of the marketing authorisation**
 - a **permanent marketing cessation** affecting all presentations of a medicinal product in all MS. Of note, if the marketing authorisation is not withdrawn, it will automatically expire after 3 years of non-marketing under the sunset clause provision (see *Q&A on sunset clause provision*). Please follow the steps mentioned in 6.3.

Examples on most appropriate paths to report Marketing Status and Withdrawals

Example	
How to report the market launch of 2 presentations of the medicinal product in ES, FR and IT	Marketing Status Notification (Single) Alternatively, you can also use Marketing Status Notification (Bulk)
How to report temporary marketing cessation of all presentations in all EU MS	Marketing Status Notification (Single) Alternatively, you can also use Marketing Status Notification (Bulk)
After the launch of the tool, how to report the current marketing status of all presentations of medicinal product in all EU/EEA MS.	Marketing Status Notification (Bulk) Alternatively, you can also use Marketing Status Notification (Single)
How to report the intent to withdraw the marketing authorisation of a medicinal product for commercial reasons	Marketing status Withdrawal notification
How to report the permanent cessation of all presentations in all EU/EEA MS. (Sunset clause will be triggered)	Marketing status Withdrawal notification

How to report the **temporary** cessation of all presentations in all EU/EEA MS. (Sunset clause will be triggered)

Marketing Status Notification (Single)
Alternatively, you can also use Marketing Status Notification (Bulk)

6.1. Marketing Status Notification (Single)

In addition to the steps in the general procedure as described in [2.3. Create a new submission \(general procedure for all submission types\)](#), select **“Marketing Status Notification (Single)”** and note the following additional points:

1. Starting with clicking **“Select Authorised Product”** as the other steps become available after selection of the product (Figure 13);

Figure 13 Marketing Status Single Notification

The screenshot shows a web interface for a 'Submission Form'. At the top, there is a breadcrumb trail: 'Home > Draft Submissions > Submission Form'. The main title is 'Submission Form'. On the right side, it says 'Marketing Status Notification (Single)' and 'Reference: EMA/PA/0000056130'. Below the title, there is a note: 'Please make sure that the required sections have a green tick to the right (except "Documents from EMA") before submitting the application.' Underneath, the customer information is displayed: 'Customer Name : European Medicines Agency' and 'Address : 30 Churchill Place London E14 5EU United Kingdom'. A list of navigation options is provided: 'Select Authorised Product' (highlighted in blue), 'Register Marketing Status', 'View Proposed Marketing Status', 'Declaration', and 'Submit Application'. At the bottom left, there is a blue 'Return' button.

2. Click on the search icon under **“Authorised Product”**. A list will appear, which includes all products associated to the selected organisation. Select one, then click on “Save and Return”. 2.7. Once the record is saved, the system will auto-populate details like ‘Product Status’, ‘EU number’, ‘Reference number’, ‘Active Substance(s)’, ‘Product Name’, when you revisit the **“Select Authorised Product”** tab.

Please note that once you select an authorised product and click on 'Save and Return', you can no longer change the product in this submission. If you need to select a different authorised product, you can do so by starting a new submission. In this case, you need to delete the submission yourself present under draft submission by following steps mentioned in section 2.7.

3. Click on the section **“Register Marketing Status”**- all product presentations are shown, for the selected ‘Authorised Product’. Please note if you are doing this for the selected product the first time, you will not see any presentation listed. You can add the relevant product presentation(s), member state(s) and Marketing availability by clicking on the **‘Register Marketing Status’** button, as shown in Figure 14.

All fields marked with red asterisk are mandatory to fill. This page is divided into 3 sections.

- i. **Marketing status** - The fields present under this section are dynamic and will change based on selection of value in the field "Marketing Status":
 - **Marketing Status = 'Marketed'**: Select this field to report the marketing of one/more presentation(s) of the medicinal product is in one or more Member State(s) of the Union. The user needs to specify the 'Date of Marketing Status Change'.
 - **Marketing Status = 'Temporarily Unavailable'**: Select this field to report that one/more presentation(s) becomes temporarily unavailable in one or more Member State(s) then 'Date of Marketing Status Change', 'Reason of cessation', 'Estimated date of Reintroduction', 'Does cessation lead to Shortage' become **mandatory**.
 - **Marketing Status = 'Not Marketed'**: Select this field to report that one/more presentation(s) change the status to permanent cessation/non marketed in one or more Member State(s), then 'Date of Marketing Status Change', 'Reason of cessation', 'Does cessation lead to Shortage' become **mandatory** and have to be specified by the user to save the details.

Please refer to regulatory guidance for [Notifying-change-marketing-status](#)

- ii. **Product Presentations** - Single or multiple product presentations can be added by clicking on the 'Add' button present under 'Product Presentations'.
- iii. **Member State** - presentations can be marketed in different countries, single or multiple countries can be selected here.

Safety - Medicinal product is harmful (Articles 116 and 117)	Yes		<input type="checkbox"/>

- After completing the steps above, click on '**Declaration**', confirm the declaration, click Save and Return and submit your application in the '**Submit Application**' section. You will receive a confirmation email on the successful submission.
- Your submission is shown in the "**Submissions/Ongoing**" sub-tab. After the case (procedure) is automatically processed by the IRIS system, the submission will be moved to the "**Submissions/Completed**" tab. You will receive a confirmation email of the completion of the procedure. Please raise [Service Desk Ticket](#) by selecting software as '**IRIS**' in case of facing any issues.

6.2. Marketing Status Notification (Bulk Upload)

In addition to the steps in the general procedure as described in [2.3. Create a new submission \(general procedure for all submission types\)](#), select "**Marketing Status Notification (Bulk Upload)**" and note the following additional points:

- Select the Authorised product in the section "**Select Authorised Product**", click '**Save & Return**'.
- Click on "**Download Current Marketing Status**" section. All product presentations associated with the product are now displayed in a table; to download the presentations in an Excel file, click on the '**Download**' button. Once the file is downloaded, click on '**Return**' to go back to the main page.
- You can then update the data in the file as per your needs. Please make sure that you delete the rows where no changes are required. Also note, all presentations shall belong to same authorised product selected in 1

Please note that the values in each column must be provided in a standardised format; refer to **Error! Reference source not found.** for the correct format and values as shown in the below

table(Figure 17) to avoid validation failures. The order of the columns should also be maintained, and the headers should not be modified.

You can also find an excel sheet [Download Market Report Current Status- Template](#) with all values in a standardised format that could serve to copy/paste the fields when preparing the sheet.

Figure 17 Format/Values for Fields in csv

Data columns	format and allowed values
Marketing Status	Marketed Not marketed Temporarily unavailable
Date of Marketing Status Change (format)	DD-MM-YYYY
Reason for Cessation	01. Safety - Medicinal product is harmful (Articles 116 and 117) 02. Efficacy - Medicinal product lacks therapeutic efficacy (Articles 116 and 117) 03. Benefit/risk - risk-benefit balance is not favourable (Articles 116 and 117) 04. Quality - Quantitative and qualitative composition of the medicinal product is not as declared (Articles 116 and 117) 05. Instructions

- Upload **one** Excel document per submission and ensure that the Excel file has a **table** and at least one row.
- The Excel table must contain **at least** the following column names: ID, Country Code, Status and Status Date.
- Each product ID must be a valid Product Code that is **authorised** to your organisation.
- The Country Code must be a 2-digit **EU** ISO Country Code and Status must be 'Marketed', 'Not marketed' or 'Temporarily unavailable'.
- Status date must be a valid date and cannot be **before** the initial market placement date.

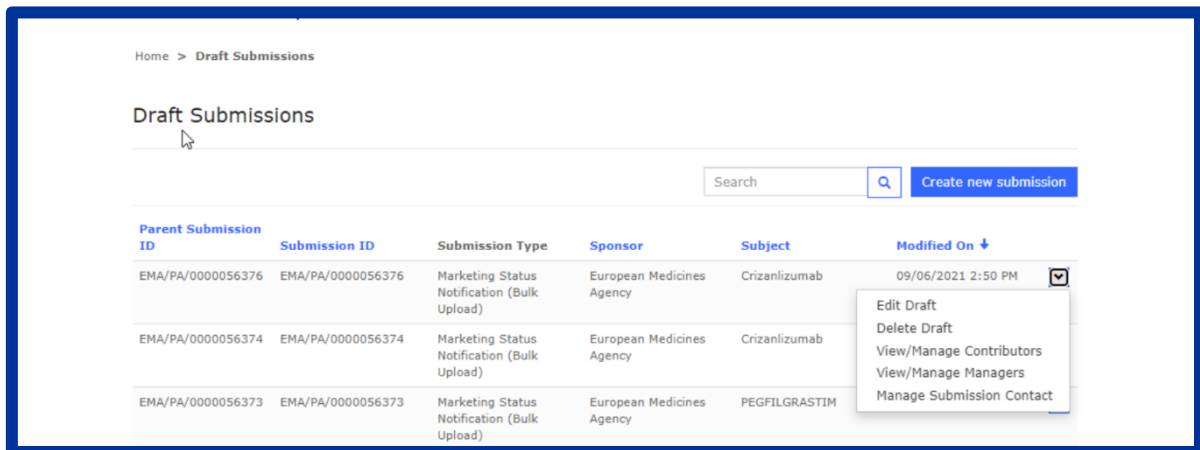

Upload Marketing Status

No file chosen

5. The **"View Proposed Marketing Status"** section will be blank at the time of submission. Data will be added to the view once EMA has processed the case.

- After completing the steps above, confirm the declaration and submit your application in the '**Submit Application**' section. You will receive a confirmation email on the successful submission.
- Your submission is shown in the "**Submissions/Ongoing**" sub-tab.
- You will receive an email if the system finds errors in the uploaded file. The submission will move back to the "**Draft Submissions**" section if errors are found. Please login to the IRIS portal, open the same submission in "edit draft" mode by clicking on '**V**' shaped button present on the right end corner of the record.

Figure 20 Opening the submission in edit mode

- Click on the '**Upload Proposed Marketing Status**' section. Errors will be shown under section '**Input File Validation**' as shown in **Error! Reference source not found.Error! Reference source not found.**

Name ↑	Description
EU613	Row4:Country is invalid,Marketing Status does not exists
EU8613	Row2:Country is invalid
EUUUU27773	Row3:Country is invalid,Does Cessation Lead to shortage does not exists

10. Download the file again by clicking on '**Download**', correct the data, upload the file and submit again. This process must be repeated until the system accepts the uploaded file. You will then receive an email stating that your submission is valid, and submission has moved to '**Completed**' tab.

6.3. Marketing Status Withdrawal Notification

In addition to the steps in the general procedure as described in [2.3. Create a new submission \(general procedure for all submission types\)](#), select "**Marketing Status Withdrawal**" and note the following additional points:

1. Select the Authorised product in section "**Select Authorised Product**" section, click 'Next', and select one of the options to proceed further. Please note if you select '**No**' as option, then the system will provide a relevant message on proceeding further (Figure 23). You have to delete this draft submission yourself (2.7. Delete a draft submission);

Do you want to withdraw/suspend all presentations of the medicinal product? (Art. 14b)

Yes No

If yes, Please choose:

A request for withdrawal of the central marketing authorisation of your product ⓘ
 A decision not to apply for the renewal of a marketing authorisation
 Permanent cessation of marketing of the product ⓘ

Please provide the intended date:

Please provide the reason for permanent marketing cessation:

Based on the grounds provided in Articles 116 and 117 of Directive 2001/83/EC
 Not based on the grounds provided in Articles 116 and 117 of Directive 2001/83/EC

2. After completing the steps above, confirm the declaration and submit your application in the '**Submit Application**' section. You will receive a confirmation email on the successful submission.
3. Your submission is shown in the "**Submissions/Ongoing**" sub-tab. After the case (procedure) is completed by EMA, the submission will be moved to the "**Submissions/Completed**" tab. You will receive a confirmation email of the completion of the procedure.

6.4. Marketing Status Report Dashboard

The dashboard for Marketing Status Reports can be accessed in [IRIS Portal](#) under the "**Products**" Tab; Marketing Status Report. This dashboard allows users¹ to see only the products they are entitled to visualise, i.e. those associated with an organisation to which there are affiliated to (for Industry users). Users will be able to filter and search the registry based on the data columns shown in Figure 26. Searches can be made using a wildcard search (*1/00/129/*) or selecting a value from the dropdown.

Once the search criteria have been selected, click on the '**Apply**' Button. The report is generated with all presentations as per the selected criteria.

Users can download the data shown in the table in an Excel file by clicking on the '**Download**' button. To reset and make new selections click on the '**Reset**' Button.

Select the '**Report Date**' in **future** to see the forecasted Marketing Status for all Authorised Products, all Presentations for all Countries on that selected date in the Marketing Status Report page. Please note that the "**Download**" button will be disabled when this feature is on.

System allows to reset the report date to see Marketing Status for all Authorised Products, all Presentations for all Countries on current date.
