To: Holders of Wholesale Dealer Licence

Dear Sirs,

New licensing condition for Wholesale Dealer Licence
(Effective from 1 August 2021 upon licence renewal)

In a recent meeting, the Pharmacy and Poisons (Wholesale Licences) Committee (the "Committee") has decided to impose the following new licensing condition on Wholesale Dealer Licence ("WDL") upon licence renewal from 1 August 2021 onwards:

"The licence holder must not handle advanced therapy products."

The Committee has made this decision by taking into consideration the enhancement of the regulatory control of advanced therapy products ("ATP") as introduced by the Pharmacy and Poisons (Amendment) Ordinance 2020 which will commenced on 1 August 2021.

For the licensed wholesale dealers intend to handle ATP, they are required to notify the Committee and provide evidence to support the requirements applicable to the handling of ATPs as stipulated in the latest version of Code of Practice for Holder of WDL (https://www.ppbhk.org.hk/eng/code_of_conduct_practice/index_3.html) are satisfied.

The notification and supporting evidence should be submitted in at least two months before the expiry of your WDL in writing to:
