Starting Your SEARCH

Type your search terms in the Search Bar, which can be key words, company names, or authors' names

The screenshot shows the Scrip search interface. At the top left is the Scrip logo with the tagline 'Informa Pharma Intelligence'. A search bar is highlighted with a red box and a yellow callout '1'. Below the search bar, the search results are displayed. On the left, there is a 'Filter By' section with a 'Clear All' button. Under 'Publication', there are checkboxes for 'Pink Sheet (3259)', 'Scrip (2537)', 'Medtech Insight (1512)', 'HBW Insight (568)', and 'In Vivo (508)'. A yellow callout '4' points to the 'See All' link. Under 'Date', there are radio buttons for 'All', 'Last 24 hours', and 'Last 3 days'. The main search area shows the search term 'kidney' in a search box, a 'Search Tips' button circled in red with a yellow callout '2', and a 'Search headlines only' checkbox. Below the search box, it says 'Showing 1 - 10 of 8,460 results for kidney'. A 'Keyword Search Tips' pop-up window is open, showing tips for searching, such as using Boolean operators and nesting search strings. A yellow callout '3' points to the 'Keyword Search Tips' title. The first search result is a news article titled 'Alentis Aims To Put The Brakes' by Kevin Grogan, dated 15 Jun 2021.

1 The **SEARCH BAR** appears towards the top of every page.

TIP: To see more search options quickly, run a search without any search terms.

Searches retrieve results if they are found in a headline or article text. Searches do not search within tags—use filters to restrict results based on tags.

2 **TIP:** To focus your search, you can restrict your search to headlines only.

3 View our **SEARCH TIPS**, which can be found on any search results page, to ensure you get the most of your searches.

4 There are 10 ways to filter your search results to narrow them down and target your result set to your needs. Filter your results by any combination of: Publication, Industry, Subject, Therapy Area, Device Market Area, Date, Company, Region, Content Type and Media Type.

Search Rules and Techniques: Boolean Search

You can use the Boolean operators AND, OR, NOT to include or exclude results from your search. You can also use parentheses to create nested Boolean searches.

The screenshot shows a search interface with a search bar containing the query "Pfizer AND (Novartis OR Merck)". Below the search bar, there is a checkbox for "Search headlines only" which is checked. The results section shows "Showing 1 - 10 of 142 results for Pfizer AND (Novartis OR Merck)". The first result is dated "29 Jan 2021" and is titled "Novartis Steps Up To Plate To Produce Pfizer/BioNTech COVID-19 Vaccine". The second result is dated "31 Dec 2020" and is titled "Coronavirus Update: Regeneron's New Antibody Efficacy, Pfizer And Merck Strike US Contracts". The third result is dated "31 Jul 2020" and is titled "Coronavirus Update: Regeneron's New Antibody Efficacy, Pfizer And Merck Strike US Contracts".

EXAMPLES:

Pfizer AND Merck finds articles containing both Pfizer and Merck.

Pfizer OR Merck finds articles containing either Pfizer or Merck.

Pfizer NOT Merck finds articles containing Pfizer, that do not also contain Merck.

Pfizer AND (Novartis OR Merck) finds results containing Novartis and Pfizer, Merck and Pfizer, or all three.

Search Rules and Techniques: Exact Matches

By default, stemming is applied to your search terms to automatically search for word variants. This means that typing the search term develop might also find developer. To search for an exact match, enclose your search terms in quotes.

24 Nov 2015 NEWS

Generic Daklinza Deal Sets Precedent In HCV **Drug** Licensing

1 Searching for **"generic drug"** will retrieve only results containing that exact phrase.

2 Searching for **generic drug** will find results containing generic and drug, but might be separated by other words, or, as a result of stemming the results might contain words with the same stem, such as generics or general.

3 You may also use Boolean operators between separate quoted terms. If you want to find all articles containing the exact words **"generic"** and **"drug"**, but not necessarily adjacent to each other or in that order, you can search for **"generic" AND "drug"**.

Search Rules and Techniques: Wildcards

Using an asterisk (*) at the beginning, middle or end of a word or part of a word will allow you to find matches that include additional letters, as represented by the asterisk.

2 Searching for ***gen** finds articles containing Amgen, oxygen, etc.

3 Searching for **gen*ic** finds articles containing genetic, generic etc.

Customizing Your Results: Sort and Display Options

You have several options to change the search result display.

The screenshot shows a search results interface for the term "heart". On the left, there are filter sections for "Publication", "Industry", and "Subject". The "Publication" section has "Medtech Insight" selected. The main content area shows a search bar with "heart", a "Search" button, and a "Search Tips" link. Below the search bar, there are options to "View headlines only" (annotated with 1) and "SORT BY" options for "Date" (annotated with 2) and "Relevance". The search results show a news article titled "Medical Device Startups Shine At AXA PPP Health Tech & You Awards" by Catherine Longworth, dated 28 Apr 2017. At the bottom, there is a "Results Per Page" dropdown menu (annotated with 3) with options 10, 20, and 50, and a pagination bar with links for 1, 2, 3, 4, 5, and Last.

1 Turn on **VIEW HEADLINES ONLY** for a more condensed display feature

2 Sort by Date or Relevance, ascending or descending.

3 Scroll to the bottom of the page to select the number of results per page and navigate to the next page.

Customizing Your Results: Facets and Filtering

What you see is up to you. The search functions across all of our publications – showing the full breadth of content we offer on any given search parameters. Or, you can limit your search to just the publications you subscribe to, or the subject area, region, date range or media type you need.

The screenshot displays a search interface with the following elements:

- Search Bar:** Contains the text "heart" and a search button. Below it is a checkbox for "Search headlines only".
- Filter By Panel:**
 - Publication:** "Select My Subscriptions" is highlighted with a yellow circle containing the number 1. Other options include Pink Sheet (8497), Scrip (3739), Rose Sheet (1429), and In Vivo (1426).
 - Industry:** "Medical Device" (8473) is selected.
 - Subject:** "Innovation" (191) is selected, highlighted with a yellow circle containing the number 2. Other options include Platform Technologies (187), Regulation (176), Clinical Trials (170), and Business Strategies (126).
- Search Results:** Shows "Showing 1 - 10 of 11,863 results for 'heart'". The first result is a news article titled "Medical Device Startups Shine At AXA PPP Health Tech & You Awards" by Catherine Longworth, dated 28 Apr 2017. The second result is "The Patient Perspective: Upcoming US FDA Device Center Studies Put Device-Users In Front Seat", dated 25 Apr 2017.

1 **TIP:** Click Select My Subscriptions to view only the publications you subscribe to.

Your most recently selected publications are maintained for your next search. To search all publications, tick the box for each publications or use the Clear

2 **TIP:** Selecting more than one choice within the Subject, Therapy Area, Device Market Area or Region facet retrieves all articles tagged with **any** of the choices. For example, selecting U.S. and Canada displays articles containing either the U.S. tag, Canada tag, or both tags.

Selecting tags in multiple facets retrieves articles that are tagged with at least one selection from the facet. For example, selecting Regulation and Asia Pacific displays articles containing both the Regulation and the Asia Pacific tag.

Customizing Your Results: Facets and Filtering

More tips for using facets and filtering to find only the results you need.

The screenshot shows a search interface with several filter facets on the left and a list of news articles on the right. The facets include Date, Industry, Subject, Therapy Areas, Device Areas, Companies, Content Type, and Media Type. The 'Date' facet has a 'Select date range' option with input fields for 'From' and 'To' dates, marked with a yellow circle '1'. The 'Companies' facet has a search box with 'merck' entered and a dropdown list showing 'Merck & Co., Inc.' and 'Merck KGaA', marked with a yellow circle '2'. The 'Media Type' facet has checkboxes for various content types, marked with a yellow circle '3'. The news articles on the right include titles like 'Glenmark Fulfills Promise To Introduce Tiotropium In Europe', 'Alentis Aims To Put The Brakes On Fibrosis', 'NICE Decision On Arthritis Opens Door For Biosimilars', 'Breckenridge Eyes First Kyprolis Generic With FDA Approval', and 'Nestlé Sees Importance Of Local Brands In 'Fragmented' VMS Market'.

1 You can click on the calendar icon or enter dates to select a date range. If you are entering a date range, be sure to use day/month/year format. For example, enter January 15, 2020 as 15/01/2020.

2 To use the **Companies** Filter, start typing the company name to choose it from the list. You may see fewer results than searching for a company name by keyword, because a story is not tagged with a company name if the company is simply mentioned in passing.

3 To limit your results to podcasts, videos or other multimedia, use the **Media Type** filter.

Saving and Sharing

Save your search to run again later, turn it into an RSS feed, or share it with a colleague via email. You can also bookmark articles from the results page

The screenshot shows a search results interface. At the top right, there are four numbered callouts: 1. EMAIL (with an envelope icon), 2. RSS (with an RSS icon), 3. SAVE SEARCH / SET ALERT (with a star icon), and 4. (with a star icon). The main search area has a search bar containing 'kidney' and a search button. Below the search bar, there are options to 'View headlines only' and 'SORT BY Date' or 'Relevance'. The results list shows a news article from 11 Jun 2021 titled 'Cardiovascular Catch-Up: Spring Brings Bloom Of New Clinical Trial Results And Launches' by Reed Miller. A second callout '4' points to a star icon next to the article title. The left sidebar has filter options for 'Publication' (Medtech Insight, Pink Sheet, Scrip, HBW Insight, In Vivo) and 'Date' (All, Last 24 hours, Last 3 days, Last week, Last month, Last year, Select date range).

1 Fill out a simple form to email a list of your results to someone else—or yourself.

2 Set up an RSS feed based on your search criteria.

3 Save your search to run again later, or turn it into a custom email alert so you are automatically notified whenever new content meeting those search parameters is published.. Go to **My Account** to view your results again.

4 Bookmark an article for future reference directly from the result list.
